OBJECTIVE

Detail-oriented and analytical individual with knowledge of Business Process Modeling (BPMN), Power BI, Flutter Development, and UI/UX Design. Interested in Business Analysis and Project Management, with a passion for identifying business needs, improving processes, and supporting technology-driven solutions that create organizational value.

PROJECT

Vet-Talk Mobile Application

Designed the system architecture and UI prototype for a community-based stray animal care platform using Flutter and Figma. Analyzed user requirements, created wireframes, and developed intuitive interfaces to enhance user engagement and accessibility.

NSBM Campus App UI/UX Redesign

- Evaluated the existing user interface and user experience.
- Identified usability issues and feature gaps.
- Designed improved interfaces and proposed new features using Figma.

CERTIFICATES

Power BI Desktop – LinkedIn

Learning AI for Business Analysis - LinkedIn

Foundations of Project Management – University of Moratuwa

Project Scope and Schedule Management – University of Moratuwa

EDUCATION

BSc (Hons) in Management Information Systems (MIS), NSBM
Green University

EXPECTED GRADUATION: DECEMBER 2027
